Intelligent Isolation Key Switch

An intelligent, cost-efficient alternative to the mandatory Isolation Key Switch delivering advanced engineering features to both C-Plus and Compact control boards—

WARRANTY 5 YEARS

bsi.

KEY POINTS

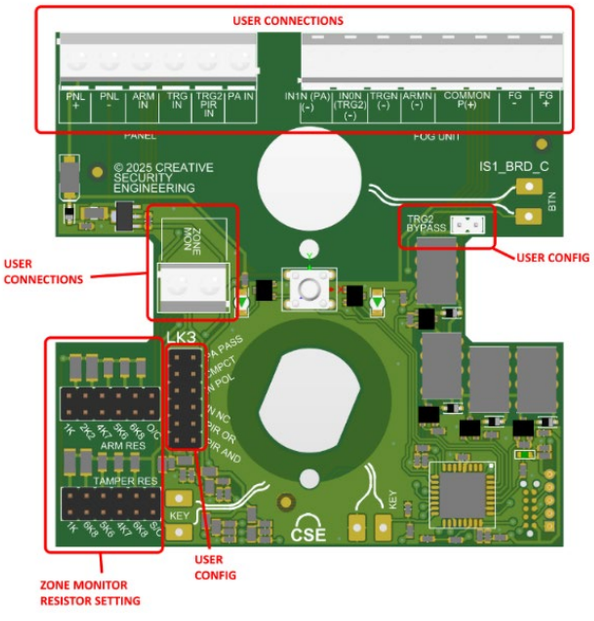
- **Effortless maintenance –** A 4 second test shot without accessing the Security Fog Device or reprogramming.
- **Simple Installation –** Built-in output relays for Arm / Trigger / PA / TRG2
- **Engineer Friendly–** LED status and selectable NC / Alarm / Tamper EOL resistors
- **Compliant –** Double-pole isolation key with monitored switch
- **Reduced Activation Risk –** Independent PA isolation option
- **Enhanced Intelligence (Lite Range) –** Ability to add Hold-Off PIR (AND / AND-OR) & HUA Functionality

COMPATIBILITY

Density Line & Density Lite Range

TYPICAL APPLICATIONS

Monitored Key State	Yes
Selectable EOL Resistors	Yes
Front Tamper	Yes
Density Line -C-Plus Control	Yes
Density Lite - Compact Management & Control	Yes
PA Isolation	Yes – Option
Intruder Trigger Output Polarity – Engineer Option	Neg/Pos
Intruder Output Logic	NO or NC
Maintenance Test Shot (C-Plus)	Yes – 4 seconds
Maintenance Test Shot (Compact)	Yes – 4 seconds
Premises Live Test Shot	Yes – 1 second
Arm Output Relay	Yes
Trig Output Relay	Yes
Trig 2 Output Relay	Yes
PA Output Relay	Yes
Trig 2 Link/Mimic	Yes
Density Lite: - Provides - Dedicated PA Shoot	Yes
Density Lite: - Provides - Hold-off PIR	Yes (AND)
Density Lite: - Provides - Alarm Trig OR PIR Shoot	Yes (OR)



Designed and Manufactured in the UK
